SAXONY! – A BUSINESS LOCATION AT ITS BEST

There are many good reasons why the region in the heart of Europe is a top location for globally active companies as Volkswagen, BMW, GLOBALFOUNDRIES, DHL, BOSCH, and Infineon.

It's all about the people who are Saxony's greatest asset. Because – Saxons are exceptionally bright. More than 93 % of Saxony's workforce possess at least a university entrance qualification / completed vocational training (OECD average = 81 %).

Saxony's transportation infrastructure is also efficient and solution-oriented – with its dense network of federal expressways, rail lines, three inland ports on the Elbe River, and two international airports. At Leipzig/Halle Airport, the logistics giant DHL provides 24/7 service year round at its European air cargo hub.

Vibrant industrial branches form the backbone of the business location Saxony. The traditional heart of Saxony's economy is found in the Chemnitz-Zwickau region. Whether it be mechanical engineering or more than 100 years of »Autoland Saxony« – strong and highly efficient industries have evolved from smart ideas and intelligent solutions. The heart of »Silicon Saxony« – Europe's largest cluster for the microelectronics / ICT sector – beats in Dresden.

A great plus for Saxony is its enormous innovative power. This has been confirmed by the EU »Regional Innovation Scoreboard«: Saxony is a European »Strong Innovator.« The intersectoral focus of Saxony's researchers is on on topics as hydrogen technology, electromobility, and automation technology / robotics.

Saxony – this doesn't just stand for business, dynamic growth, and industry. World renowned are also the products »made in Saxony« with precision craftsmanship and manufacturing tradition such as MEISSEN® porcelain or watches made in »Glashütte / Sa.«. And – Saxony enchants. With a superb blend of a remarkable historical heritage, a wide range of cultural attractions, and great natural beauty – Germany's number one travel destination for culture enthralls residents and tourists alike.
